QNM RESPONSES

COSMOLOGICAL CORRELATORS

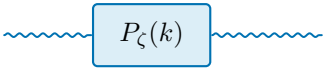

FREE SECTOR

(a) Linear QNM response

$$G_a^R(\omega) \simeq Z_A/(\omega - \Omega_A)$$

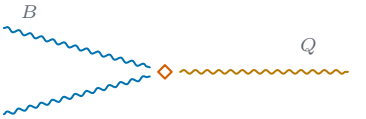

(d) Primordial power spectrum

Gaussian two-point function

CONTACT INTERACTION

(b) Quadratic response

composite pole: $\Omega_Q = \Omega_B + \Omega_C$

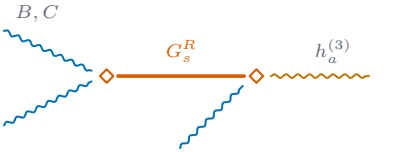

(e) Contact bispectrum

single-vertex contribution

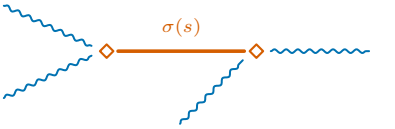

EXCHANGE CHANNEL

(c) QNM exchange pole

factorized residue: $\Gamma^{(2)}_{a|SD} Z_S \Gamma^{(2)}_{S|BC}$

(f) Exchange trispectrum

factorizing exchange singularity
